App Name Galaxy Defense Mod Apk Version 1.2.3 Developer DH Games Supported on 3.0 and until Update August 22, 2015 Game Mode Offline Game Size 17 MB Strategy Category You like strategy shooting game for Android. Then you can try Galaxy Defense Game which is one of my favorites where we need to put Tank in our area and base defense. This is an offline game and you don't need an internet connection to play. But if you use normal apk then you'll get bored quickly watching too many ads. So my suggestion is - download the mod apk which is much better. The main scene of the game is, Mystic Droid Army has come and invaded our planet and as commander, we should hold the last line of defense. You need to place the towers in perfect defense formation and kill all the to win. Let's look at some features of this game that make the game more interesting. Raid on the Galaxy All you have to do is - Attack the enemy on the Galaxy. Fight the power of the androids and take victory. You need to play the tactical game and build your own strategy to stop the droid. Otherwise, you could get yourself killed. You can point out an enemy tower to focus on them to shoot. Always note a tower that shoots at your tower, it would be a great trick. There are a total of 3 waves coming in 1 single stage. You have to finish everything. PowerUPs There are a total of 36 power-ups available in the Galaxy defense game that you can use. But you can't use them all at once. If you use the same power up again and again then you could lose power. And to reuse it you will have to wait some time. Download similar strategy plague game Inc. Mod Apk and Bahubali The game Mod Apk Challenges In this game there are a total of 80+ challenges to play. And you can play them in - Normal, Medium and Hard level. Choose the right mode for you, which you are most qualified for. If you are a beginner then normal level is perfect, otherwise you will not be able to pass a stage. Weapon There are many weapons available to play with the Galaxy Defense Game. Machine gun, rocket launcher, laser, cannon. You can upgrade them to increase power. There are also more additional facilities such as - Spider Mine, Power chip, Death Impulse, Shield, Air Raid, EMP and more. If you are a good gamer and love strategy game then this game will satisfy you with its challenging mission and stages. In addition to control and graphics this game is ideal to play on Android. Control - On average the control of this game is not so satisfactory. There is some bug in place of a tank or tower in a space that sometimes doesn't work perfectly. Graphics - Although this is a 3D game the quality of this game does not serve me well. You won't be satisfied with this games worse graphics. Sound - Background music is pretty good and all the action sounds like baking or shooting is priceless. You should try this game once before judging the game. Stages - There are many stages in this game and in each stage there are 3 waves and you have to defend all your enemies to win a match. This game is suitable for both low-end and high-quality devices. It doesn't lag behind in low mobile android storage and doesn't need a lot of RAM to play. Even if you have less than 521MB of RAM you can play this game without any pressure. If Your device is not performing well and needs to clean up, then use the SD Maid Pro Apk for free. You will get the following features in the mod version - Unlimited Currency, Unlimited Crystal, Unlocked Supports, Max HP, No Ads, Ads, Ads.
